KNOWS MORE THAN JFK?

Tower Missile Claims Draw Yarborough Jest

Star-Telegram Washington Bureau

WASHINGTON, March 14 — Senator Ralph Yarborough says his Republican counterpart, Senator John Tower, should be put on the President's Security Council, "since he claims to know more than Mr. Kennedy about missiles in Cuba."

Continuing his jest, Yarborough said Tower "must have some awfully good sources to know that there may be as many as 40 missiles in Cuban caves . . . after all, the President had the State Department, the Central Intelligence Agency, the intelligence work from the Army, Navy and Air Force plus information from Cuban refugees."

Yarborough's comments came after Tower told a luncheon audience here that he and Senator Kenneth Keating (Republican of New York) and Senator Strom Thurmond (Democrat of South Carolina) believe there may be "as many as 40 missiles in Cuba."

Yarborough added: "I have not been in those caves and I really don't know for sure what's in them. But if Senator Tower is planning to lead a commando raid to investigate, I don't want to be left out."
